

# Beyond the Curve (Five Thousand Rings)

Chihiro Mori  
(Artist)

High rises that look like bar charts  
Junctions that look like intestines  
Streets that feel like gingivae  
underneath your feet  
Behind the birth of a new "Ultra C"  
I give the cerebellum a prod with a  
brain spatula  
Colorful mud  
Heated bones and gusts around tall  
buildings  
Springs made of air  
Transparent curves
